

DELIVERY & DISTRIBUTION SOLUTIONS

by *dura-fibre*[®] LLC

Solid fibre totes and containers cost less than plastic and last longer than corrugated. They are strong and durable, ideally suited for material handling and product protection. With Dura-Fibre's design capabilities, manufacturing processes, and orientation to service, you'll get exactly the container you want on-time and on budget.

Custom Design >>

A variety of design options and materials allow you to easily adapt Dura-Fibre solid fibre containers to fit your requirements. Low die charges make small volumes affordable. This gives you the money-saving flexibility to order the quantities you need. Our experienced design staff can help you create a container to answer your specific storage or handling need. This saves you money and helps your operation run more efficiently. Before you invest, you approve a prototype so you get exactly the container you expect.

FEATURES	BENEFITS
Printing & graphics	Company/product identification
